

Gourmet Dairy
since 1926

Company profile Gourmet Dairy Zott

Status 4/2024

The name Zott stands for enjoyment and quality paired with a passion for milk. For over 90 years, the Bavarian family business – now in its 4th generation – has successfully produced a variety of well-known yoghurt, dessert and cheese specialities, including Zott Monte, Jogobella and Zottarella. The company has always focused on innovation and has been able to establish numerous successful brands in various product segments in the past, which still meet consumer tastes today. In 2022, the first vegan products from Zott accomplished the portfolio – a significant step in the history of the company, which for a lot of consumers is synonymous with tasty dairy products.

Every single product from Zott is manufactured with great attention to detail and in compliance with the highest quality standards. As an internationally recognised specialist in indulgence, Zott has installed a strict HACCP concept to ensure food safety and consumer protection. The dairy has all the necessary certifications for its production facilities and also other specific certificates e.g. that of Halal Control. Commitment to sustainability is also a central concern of the company's management, which has been promulgated in the guiding principles within the framework of a Corporate Responsibility (CR) strategy. The CR strategy, entitled "Zott Caring for Life", is based on a pillar model. It addresses the areas of animals, the environment, people and society.

With currently around 2,713 employees and a consolidated net group turnover of around EUR 1.189 million and a milk processing volume of 820 million kg in 2023, Zott is one of the large dairies in Europe. In addition to the group's main plant in Mertingen, Bavaria, there are further production sites in Germany (Günzburg) and in Poland (Opole). Zott also has sales locations in Austria, Hungary, Croatia, the Czech Republic, Slovakia and Vietnam.
